REPORTING OF ERRORS

You can improve this publication by calling attention to errors and by recommending improvements and stating your reasons for the recommendations. Your letter or DA Form 2028, Recommended Changes to Publications and Forms, should be mailed directly to Commander, US Army Troop Support Command, ATTN: AMSTR-MMTS, 4300 Goodfellow Boulevard, St. Louis, MO 631 20-1 798. A reply will be furnished directly to you.

NOTES

This LO is for crew/operator (C) or organizational (O) maintenance. Lube intervals (on-condition or hard time) and task hour times are based on normal hours of operation. Change the intervals if your lubricants are contaminated or if you are operating the equipment under adverse operating conditions. Lube more during constant use and less during periods of low activity. Adequate preservation precautions must be taken during inactive periods. Use correct grade of lubricant for seasonal temperature expected.

WARNING - Dry cleaning solvent PD-680 used to clean parts is potentially dangerous to personnel and property. Avoid repeated and prolonged skin contact. Do not use near open flame or excessive heat. Flash point of solvent is 100°F-138°F(38°C-60°C).

Clean parts with dry cleaning solvent PD-680 and dry before lubricating.

Before you start your lube service.

ALWAYS

NEVER

NOTES:

1. FOR OPERATION OF EQUIPMENT IN PROTRACTED COLD TEMPERATURE -10°F (-23°C). Remove lubricant prescribed in table 1 for temperatures above -10° F (-23° C). Clean parts with dry cleaning solvent PD-680. Relubricate with lubricants specified in table 1 for temperatures below -10°F (-23° C). For arctic operation refer to FM 9-207.
2. OIL CAN POINTS. Every 25 hours lubricate all exposed adjusting threads with OE/HDO.
3. OIL FILTER - Element/Spin-on types. Oil filters shall be serviced/cleaned/changed as applicable when:
 - a. They are known to be contaminated, or clogged;
 - b. At prescribed on-condition or hard time intervals.
4. InSure cam wick is lubricated with OE/HDO (sparingly) whenever ignition contact points are replaced or adjusted.
5. CRANKCASE. Drain crankcase when hot. Every 50 hours drain and refill crankcase, operate engine for five minutes, check for leaks, check crankcase oil level and bring to full mark.

Copy of this lubrication order will remain with the equipment at all times; instructions herein are mandatory.

Why do I do it? I am tired of sleazy CD-ROM sellers, who take publicly available information, slap “watermarks” and other junk on it, and sell it. Those masters of search engine manipulation make sure that their sites that sell free information, come up first in search engines. They did not create it... They did not even scan it... Why should they get your money? Why are not letting you give those free manuals to your friends?

I am setting this document FREE. This document was made by the US Government and is NOT protected by Copyright. Feel free to share, republish, sell and so on.

I am not asking you for donations, fees or handouts. If you can, please provide a link to liberatedmanuals.com, so that free manuals come up first in search engines:
