#### REPORTING OF ERRORS AND RECOMMENDING IMPROVEMENTS

You can help improve this manual. If you find any mistakes, or if you know of a way to improve the procedures, please let us know. Mail your letter, DA Form 2028 (Recommended Changes to Publications and Blank Forms) or DA 2028–2 located in back of this manual direct to: Commander, US Army Communications–Electronics Command Fort Monmouth, ATTN: AMSEL–LC–LEO–D–CS–CFO, Fort Monmouth, New Jersey 07703–5000. The Fax number is 732–532–1413, DSN 992–1413. You may also e–mail your recommendation to AMSEL–LC–LEO–PUBS–CHG@cecom3.monmouth.army.mil.

In either case a reply will be furnished direct to you.

## 0.1 SCOPE.

This technical bulletin provides Installation Instructions for Electronic Equipment MK–2326/VRC, commonly referred to as the Mounting Kit (MK). The MK shall be installed into the following type of vehicle(s):

```
Truck, Utility: 1 1/4 Ton, 4x4, M998 Series
```

The MK is used for installation of radio set components at field locations. The information contained in this technical bulletin is the official authorization to perform the installation at the unit maintenance level.

#### NOTES

- This technical bulletin is not an authorization for requisition or turn-in of vehicles.
- This technical bulletin does not establish quantity or types of vehicles assigned to using units.

This technical bulletin does not contain information on the maintenance or replacement of the MKs. This information is contained in the MAC of TM 11-5820-890-20-2 and RPSTL of TM 11-5820-890-20P.

## 0.2 GENERAL INFORMATION.

The MK becomes operable when all the radio set components are installed in the vehicle and correct power is supplied. Refer to TM 11–5820–890–20–1 or TM 11–5820–890–20–2 for installation, Operational (OP) Check instructions, and required maintenance procedures. Refer to TM 11–5820–890–20P for repair parts.

Included in the Radio Set AN/VRC-89/91/92 Series is:

Adio Set AN/VRC-89/91/92 Series (for RT-1523(C)/U)

## 0.3 MAINTENANCE FORMS, RECORDS, AND REPORTS.

0.3.1 Reports of Maintenance and Unsatisfactory Equipment. See section 4.2.2.3 for information.

**0.3.2 Report of Packaging and Handling Deficiencies.** See section 4.2.2.1 for information.

0.3.3 Discrepancy in Transportation Deficiency Report (TDR) (SF361). See section 4.2.2.2 for information.

#### 0.4 CONSOLIDATED INDEX OF ARMY PUBLICATIONS.

Refer to the latest issue of DA Pam 25–30 to determine whether there are new changes, or additional publications pertaining to the equipment.

## 1. PURPOSE OF INSTALLATION.

The Electronic Equipment MK-2326/VRC (MK) contains the items needed to mount Radio Set AN/VRC- 89/91/92 Series in a Truck, Utility: 1 1/4 Ton, 4 x 4, M998 Series (vehicle). If Radio Set AN/VRC-92 Series is authorized, see section 5.6 for instructions to install MT-6353/VRC mounting base.

## 2. END ITEM OR SYSTEM TO BE MODIFIED.

Not applicable.

## 3. APPLICATION TIMES.

**3.1 Time for Completion of Installation.** Using two people, a total of 4.0 work hours is required. Typical vehicle downtime is 4.5 hours.

**3.2 Time for Installation of One Assembly or Component.** The following table lists the time required to install one component. All times have been rounded off to the nearest half hour. The sum of these times will not reflect the typical vehicle downtime.

| ITEM                                            | SECTION | TIME |
|-------------------------------------------------|---------|------|
| Antenna AS-3900/VRC                             | 5.1     | 1.0  |
| Mounting Base, Electrical Equipment MT-6352/VRC | 5.4     | 1.5  |
| Cables                                          | 5.5     | 1.0  |

## 4. PREPARATION FOR INSTALLATION.

This section explains how to prepare the vehicle and MK for installation.

**4.1 Preparation of Vehicle.** To prepare the vehicle for installation, insure that the site includes adequate lighting and a power source when drilling is required. Inspect the vehicle for damage that could affect installation. Have any such damage repaired before installing MK.

**4.1.1 Items to be Removed.** Remove existing AN/VRC-12 radio family installation kit/harness. See TM 11-5820-401-20-2 for removing items used with intercom systems, or TM 11-5820-401-20-1 (used without intercom systems), and TM 9-2320-280-20.

**4.1.2** List of Items to be Retained. Not applicable.

- **4.2 Preparation of MK.** To prepare MK, unpack, inspect and check inventory.
- **4.2.1 Precautions During Handling.** Observe these steps to prevent equipment damage.
  - a. Keep dust covers in place on connectors.
  - b. Do not disassemble or modify parts in MK unless authorized to do so.
  - c. Keep mounting hardware covered and protected until needed.
  - d. When exposed to moisture, rain or salt water, keep all parts dry to prevent corrosion.

#### 4.2.2 Unpack and Inspect Equipment.

**4.2.2.1** Inspect Packaging for Evidence of Damage. Any shipping damage should be reported on SF364 Report of Discrepancy (ROD) as prescribed in AR 735–11–2/DLAR 4140.55/NAVMATINST 4355.73A/AFR 400–64/MCO 4430.3F.

**4.2.2.2 Unpack and Inventory MK.** If any item is missing, fill out and forward Transportation Deficiency Report (TDR) (SF361) as described in AR 55–38/NAVSUPINST 4610.33C/AFR 75–18/MCO P4610.19D/DLAR 450015.

**4.2.2.3 Examine Each Item for Damage.** If any item is damaged, fill out and forward SF364 Report of Discrepancy (ROD) as prescribed in AR 735–11–2/DLAR 4140.55/NAVMATINST 4355.73A/AFR 400–64/MCO 4430.3F. All damages should be reported as prescribed by DA Pam 738–750, as contained in Maintenance Management Update.

#### 4.3 MK, Distribution, and Consumables.

**4.3.1** Items Supplied in MK and/or Required for Installation. Use Table 4–1 and figure 4–1 to identify and inventory MK parts supplied to install Radio Set AN/VRC–89/91/92 Series. Refer to Table 4–2 and figure 4–2 to identify addditional items required to install Radio Set AN/VRC–92 Series.

#### 4.3.2 Distribution and Issue Instructions.

- a. US Forces: Do not requisition MK. They will be shipped automatically.
- b. US Army Depots: Requisition MK through supply channels.
- c. Multiservice: Instructions shall be included for multiservice modifications.
- d. MAP/MAS Countries: Instructions shall be provided for MAP/MAS countries.

\* Use radio issued with your vehicle if available.

## 5. INSTALLATION PROCEDURES.

This section describes where and how to install MK items in the vehicle. See figure 5-1 for an overall view of where vehicular MK equipment, as well as radio components, typically will be installed. When installing MK equipment, be sure to read and follow instructions and illustrations carefully. If Radio Set AN/VRC-92 Series is authorized, see section 5.6 for instructions to install MT-6353/VRC mounting base.

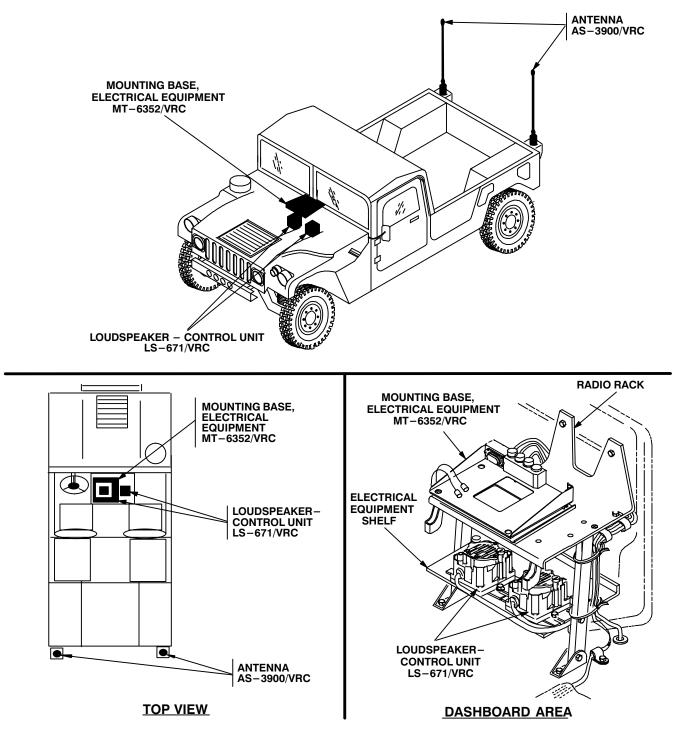

Figure 5-1 (1). MK and Radio Installation: MK Equipment Locations

5. INSTALLATION PROCEDURES. Continued.

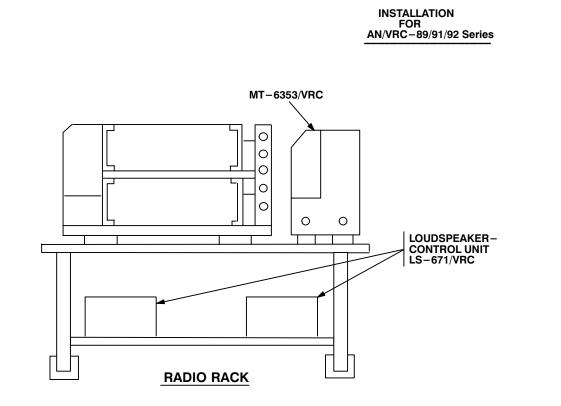

Figure 5–1 (2). MK and Radio Installation: Radio Equipment Locations

**5.1** Installation of Antenna AS-3900/VRC (antenna). Use the following procedure to install both antennas. See figure 5-1 (1) for locations.

#### 5.1.1 Installation of Antenna Base.

| ITEM                                                      | ACTION                                                                                                                                                                                                                                                                   | REMARKS                                                                                       |

| h. | Ground strap (9), cap<br>screw (8), three IET                       | Install and secure to bottom hole in antenna bracket (4) and rear wall.                                  | Tools: 1/2 in socket and 1/2 in open/box wrench.   |

#### 5.1.1 Installation of Antenna Base. Continued

ITEM ACTION REMARKS Apply silicone compound to element a. Antenna elements (1, 2). threads and assemble. See figure 5-3. b. Antenna element (2). Install and hand-tighten to antenna base (3). Lock wire (4). Install to antenna element (2) and c. antenna base (3). See figure 5-3, detail A. Cut and remove excess wire with diagonal cutting pliers. d. Fiber rope assembly (5). Attach clip to antenna element (1). Tie rope to vehicle to position antenna in desired location. See figure 5-3, detail B. 2 3 DETAIL B DETAIL A **ANTENNA ELEMENT (UPPER)** 1. 2. ANTENNA ELEMENT (LOWER) ANTENNA BASE 3. 4. LOCK WIRE FIBER ROPE ASSEMBLY 5.

**5.1.2** Installation of Top Antenna Assembly. The top portion of the antenna includes a lower element and an upper element (with installed cap). Use the following procedure to assemble, install and tie down all antennas.

Figure 5–3. Top Antenna Assembly Installation

## 5.2 Installation of Electrical Equipment Shelf.

|    | ITEM                                                                                | ACTION                                                                                                                                                                                                                                                                                                                                                                                                                                 | REMARKS                                                    |

Figure 5–5. Speaker Installation

**5.4 Installation of Mounting Base, Electrical Equipment MT**-6352/VRC (mounting base). Remove and retain attaching bag of 5/16 in mounting hardware for installation. To insure good electrical grounding, any rust, corrosion or paint around mounting holes in radio shelf should be removed before installing the mounting base. See figure 5–6 and perform the following steps.

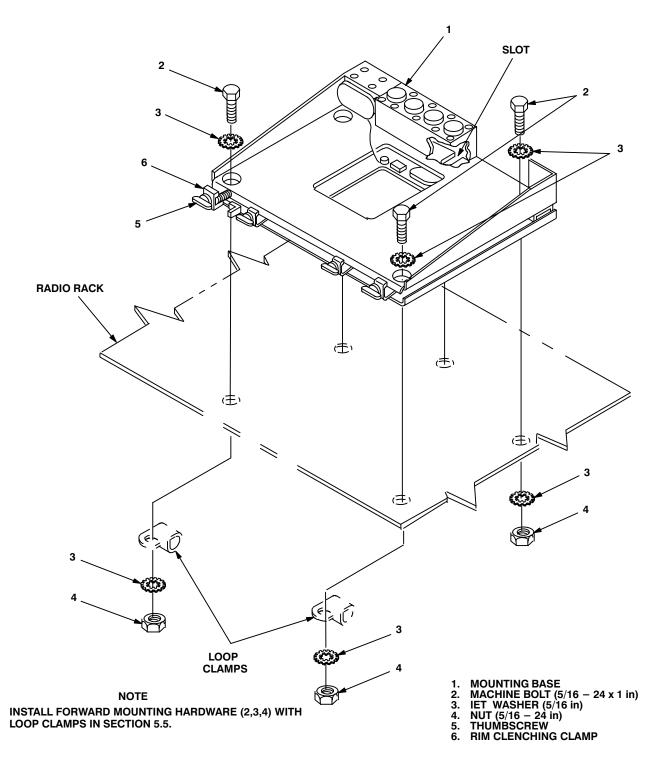

Figure 5–6. Mounting Base Installation

| C. | Two outer thumbscrews (5).                                              | Turn ccw until both sets of threads have cleared center of holes.                                                                                                                                                                                                                                                                                                                                   |                                                  |
| d. | Mounting base (1).                                                      | Align four holes and rear slot with matching hole pattern in radio rack.                                                                                                                                                                                                                                                                                                                            |                                                  |
| e. | Three machine bolts (2),<br>six IET washers (3) and<br>three nuts (4) . | Install and secure to two rear holes and slot in mounting base (1) and radio rack.                                                                                                                                                                                                                                                                                                                  | Tools: 1/2 in socket and 1/2 in open/box wrench. |

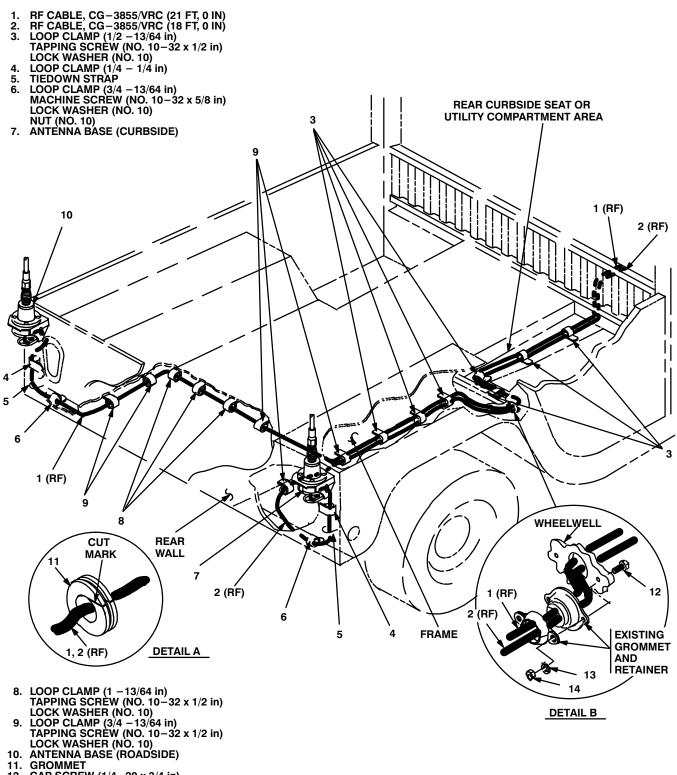

## 5.4 Installation of Mounting Base, Electrical Equipment MT-6352/VRC (mounting base). Continued

**5.5** Installation of Cables. To accomplish the installation, leave loop clamps and tiedown straps loose enough to adjust cable slack and allow easy adjustment of equipment. When installation is complete, tighten and secure clamps and tiedown straps.

## WARNING

Make sure vehicle power source is positioned OFF or disconnected before installing cables.

**5.6** Installation of Mounting Base, Electronic Equipment MT-6353/VRC. If Radio Set AN/VRC-92 is authorized, use the following instructions to install MT-6353/VRC mounting base in the location shown in figure 5-1 (2). Refer to section 5.7 for connection of cables.

ITEM ACTION REMARKS

#### NOTE

Apply a thin coat of adhesive-sealant to both sides of each internal/external-toothed (IET) washer during installation, and to the area of contact where IET washer is to be placed. Before proceeding, connect and secure CX-13291/VRC control cable and CX-13303/VRC power cable to MT-6353/VRC mounting base. (Refer to Section 5.7, step b).

a. MT-6353/VRC mounting base (1) and radio rack. Remove a 2" square area of paint on the underside of the mounting base (1) around the front two mounting holes. Remove a 2" square area of paint on the radio rack around the two front mounting holes. Clean the paint removed areas and apply a thin coat of conductive anti-seize compound.

This fine document...

Was brought to you by me:

# Liberated Manuals -- free army and government manuals

Why do I do it? I am tired of sleazy CD-ROM sellers, who take publicly available information, slap "watermarks" and other junk on it, and sell it. Those masters of search engine manipulation make sure that their sites that sell free information, come up first in search engines. They did not create it... They did not even scan it... Why should they get your money? Why are not letting you give those free manuals to your friends?

I am setting this document FREE. This document was made by the US Government and is NOT protected by Copyright. Feel free to share, republish, sell and so on.

I am not asking you for donations, fees or handouts. If you can, please provide a link to liberatedmanuals.com, so that free manuals come up first in search engines:

<A HREF=<u>http://www.liberatedmanuals.com/</u>>Free Military and Government Manuals</A>

Sincerely
 Igor Chudov
