SECTION I INTRODUCTION

1. General

a. This manual lists repair parts and equipment authorized for issue to the using organization for first and second echelon maintenance of the powder temperature thermometers M1 and M1A1.

b. Section II lists basic issue items authorized for first echelon maintenance. These items include the powder temperature thermometer and the associated first echelon maintenance accessories. all of which constitute the major combination for issue to users.

c. Section III lists items authorized for second echelon maintenance.

d. For prices of Ordnance items listed herein, see the appropriate supply manual of the SM 9-2-series. Prices of items that are the responsibility of technical services other than Ordnance may be obtained from the appropriate type 2 supply manuals for those services.

e. Additional applications of items in this manual are listed in the manuals of the SM 9-3-series.

2. Requisition Notes

a. If the item requisitioned is not furnished, or if other action is necessary, the nature of the action taken by the supplying agency will be indicated by standard symbols on prescribed forms.

b. When requisitioning an item, the requesting agency will order the listed item. However, the supplying agencies will take necessary action to issue the exhaust stock item until stock is exhausted, whether it be an individual item, kit, set, or assembly.

c. A complete listing of exhausted stock items cross-referenced to the superseding item is included in the back of this manual.

3. Explanation of Columns

a. *Expendability.* This column indicates the expendability and recoverability aspects of the item. Refer to paragraph 5 for an explanation of code used in this manual.

b. *Federal Stock Number.* This column lists the Federal stock number.

*This manual supersedes DA Supply Manual ORD 7 SNL F-346, 8 April 1955, including C 1, 26 August 1955.

c. Description. This column lists the Federal item name and any additional description required for supply operations. The abbreviation "w/e" (with equipment) when used as a portion of the nomenclature indicates that the major item or major combination includes all applicable armament, equipment, accessories, and repair parts as may be pertinent to the item. The Ordnance part number is also included in parentheses in this column.

d. Unit of Issue. This column lists the unit of issue for each item, such as "oz," "lb," etc. In the case of most items, the unit of issue is "each." The unit of issue in all cases can be considered as "each" unless indicated otherwise. It is the responsibility of the supporting Ordnance unit to determine the most practical quantity to be issued, and when it is deemed more practicable, the unit pack may be issued.

e. Allowance Per Major Item or Combination (1st Echelon). This column reflects the quantity of each component included in the major combination for initial issue only.

f. Quantity Incorporated in Unit. This column lists the quantity of each listed part incorporated in the powder temperature thermometer.

g. 15-Day Maintenance Allowance Per 100 Equipments. Repair parts which may be required for performing organizational maintenance, but are not authorized for stockage in the prescribed load, are listed with no allowance factors shown. These parts are identified by an asterisk in the allowance column and are to be requisitioned as required, for immediate use.

h. Illustration. This column indicates the figure number of the illustration that depicts the item.

4. Special Information

The powder temperature thermometers M1 and M1A1 are issued on the basis of tables of organization and equipment.

5. Explanation of Code

<i>Code</i>	<i>Explanation</i>
NR----	Indicates nonexpendable, recoverable item

6. Suggestions and Recommendations

Notice of discrepancies and recommendations for additions and deletions of repair parts and special tools should be forwarded on DA Form 2028 to the Commanding Officer, Raritan Arsenal, Metuchen, N.J., ATTN: ORDJR-CPRA.

Why do I do it? I am tired of sleazy CD-ROM sellers, who take publicly available information, slap “watermarks” and other junk on it, and sell it. Those masters of search engine manipulation make sure that their sites that sell free information, come up first in search engines. They did not create it... They did not even scan it... Why should they get your money? Why are not letting you give those free manuals to your friends?

I am setting this document FREE. This document was made by the US Government and is NOT protected by Copyright. Feel free to share, republish, sell and so on.

I am not asking you for donations, fees or handouts. If you can, please provide a link to liberatedmanuals.com, so that free manuals come up first in search engines:
