NOTE

This manual replaces TM9-6920-742-14&P-8, dated 11 JULY 1987, and TM9-6920-742-14&P-1, dated 7 JULY 1987, which have been rescinded.

## SECTION I. INTRODUCTION

### 1 SCOPE.

This RPSTL/IPB lists and authorizes spares and repair parts, special tools, special test, measurement, and diagnostic equipment (TMDE), and other special support equipment required for performance of unit maintenance, direct support, and general support maintenance of the Interconnecting Box, Target Interface (TIU); Interconnecting Box, High Power (ICB/High Power); and Interconnecting Box, Low Power (ICB/Low Power). It authorizes the requisitioning, issue, and disposition of spares, repair parts, and special tools as indicated by the source, maintenance, and recoverability (SMR) codes.

### 2 GENERAL.

In addition to Section I, Introduction, this repair parts and special tools list/illustrated parts breakdown is divided into the following sections.

a. **Section II - Repair Parts List.** A list of spares and repair parts authorized by this RPSTUIPB for use in the performance of maintenance. This list also includes parts which must be removed for replacement of the authorized parts. Parts lists are composed of functional groups in ascending alphanumeric sequence, with the parts in each group listed in ascending figure and item number sequence. Bulk materials are listed by item name in FIG. BULK at the end of the section. Repair parts kits are listed separately in their own functional group within section II. Repair parts for the repairable special tools are also listed in this section.

b. **Section III Special Tools List.** A list of special tools, special TMDE, and other special support equipment authorized by this RPSTUIPB (as indicated by Basis of Issue (BOI) information in DESCRIPTION AND USABLE ON CODE (UOC) column) for the performance of maintenance.

c. **Section IV Cross -Reference Indexes.** A list, in national item identification number (NIIN) sequence, of all national stock number items appearing in the listings, followed by a list in alphanumeric sequence of all part numbers appearing in the list. National stock numbers and part numbers are cross-referenced to each illustration figure and item number appearance. This figure and item number index lists figure and item numbers in alphanumeric sequence and cross-references national stock numbers (NSN), commercial and Government entity codes (CAGEC), and part numbers.

### 3 EXPLANATION OF COLUMNS (SECTIONS II AND III).

a. **ITEM NO. (Column (1)).** Indicates the number used to identify items called out in the Illustration.

b. **SMR CODE (Column (2)).** The source, maintenance, and recoverability (SMR) code containing supply/requisitioning information, maintenance level authorization criteria, and disposition Instruction, as shown in the following breakout:

<u>Source Code</u>	<u>Maintenance Code</u>	<u>Recoverability Code</u>
<u>XX</u>	<u>XX</u>	<u>X</u>
1st two positions How to get an item	3rd position Who can install, replace or use the item	4th position Who can do complete repair on the item
		5th position Who determines disposition action on unserviceable items

\*Complete Repair Maintenance, capacity, and authority to perform all corrective maintenance tasks of the "Repair" function in a use/user environment in order to restore serviceability to a failed Item.

(1) **Source Code.** The source code tells you how you get an item needed for maintenance, repair, or overhaul of an end item/equipment. Explanations of source codes follow:

**Code:** PA

**Definition:** Item procured and stocked for anticipated or known usage.

**Code:** PB

**Definition:** Item procured and stocked for insurance purposes because essentiality dictates that a minimum quantity be available in the supply systems.

**Code:** PC

**Definition:** Item procured and stocked and which otherwise would be coded PA except that it is deteriorative in nature.

**Code:** PD

**Definition:** Support item, excluding support equipment, procured for initial issue or outfitting and stocked only for subsequent or additional initial issues or outfittings. Not subject to automatic replenishment.

**Code:** PE

**Definition:** Support equipment procured and stocked for initial issue or outfitting to specified maintenance repair activities.

**Code:** PF

**Definition:** Support equipment which will not be stocked but which will be centrally procured on demand.

**Code:** PG

**Definition:** Item procured and stocked to provide for sustained support for the life of the equipment. It is applied to an item peculiar to the equipment which, because of probable discontinuance or shutdown of production facilities, would prove uneconomical to reproduce at a later time.

**Code:** KD

**Definition:** An item of a depot overhaul/repair kit and not purchased separately. Depot kit defined as a kit that provides items required at the time of overhaul or repair.

**Code:** KF

**Definition:** An Item of a maintenance kit and not purchased separately. Maintenance kit defined as a kit that provides an item that can be replaced at unit or intermediate levels of maintenance.

**Code:** KB

**Definition:** Item included in both a depot overhaul/repair kit and a maintenance kit.

**Code:** MO

**Definition:** Item to be manufactured or fabricated at unit level.

**Code:** MF

**Definition:** Item to be manufactured or fabricated at Intermediate maintenance levels (Air Force--intermediate\*; Marine Corps-3rd echelon; Army-direct support\*; Navy--afloat).

**Code:** MH

**Definition:** Item to be manufactured or fabricated at intermediate maintenance levels (Air Force--Intermediate\*; Marine Corps-4th echelon; Army--general support\*; Navy--ashore).

**Code:** MG

**Definition:** Item to be manufactured or fabricated at both afloat and ashore intermediate maintenance levels (Navy use only).

**Code:** MD

**Definition:** Item to be manufactured or fabricated at depot maintenance level.

**Code:** AO

**Definition:** Item to be assembled at unit level.

**Code:** AF

**Definition:** Item to be assembled at intermediate maintenance levels (Air Force--intermediate\*; Marine Corps--3rd echelon; Army--direct support\*; Navy--afloat).

**Code:** AH

**Definition:** Item to be assembled at intermediate maintenance levels (Air Force--intermediate\*; Marine Corps-4th echelon; Army--general support\*; Navy--ashore).

**Code:** AG

**Definition:** Item to be assembled at both afloat and ashore intermediate maintenance levels (Navy use only).

**Code:** AD

**Definition:** Item to be assembled at depot maintenance levels.

**Code:** XA\*\*

**Definition:** Item is not procured or stocked because the requirements for the item will result in replacement of the next higher assembly.

**Code:** XB

**Definition:** Item is not procured or stocked. If not available through salvage, requisition.

**Code:** XC\*\*

**Definition:** Installation drawing, diagram, Instruction sheet, field service drawing that is identified by manufacturers' part number.

**Code:** XD

**Definition:** A low mortality support item that is not stocked. When required, items will be requested through normal supply channels.

**NOTE**

**\*For USAF and the USA Safeguard Program, only code WF" will be used to denote intermediate maintenance. On joint programs, use of either code F or H by the joining service will denote intermediate maintenance to USAF and the USA Safeguard Program.**

**\*\*Cannibalization or controlled exchange, when authorized, may be used as a source of supply for items with the above source codes except for those source coded "XA" or those aircraft support items restricted by requirements of AR 70042.**

**(2) Maintenance Code.** Maintenance codes tell you the level(s) of maintenance authorized to use and repair support items.

**(a)** The maintenance code entered in the third position tells you the lowest maintenance level authorized to remove, replace, and use an item. The maintenance code entered in the third position will indicate authorization to the following levels of maintenance:

**Code:** O

**Application/explanation:** Support item is removed, replaced, used at the unit level of maintenance. (To distinguish between the unit maintenance capabilities on different classes of ships, the following codes may be used intra-Navy only. On joint programs, Navy will receive and transmit an 0 to Indicate unit maintenance level.

- 2--Minesweeper, Yardcraft, Patrol Boat
- 3--Submarines
- 4--Auxiliary/Amphibious Ships
- 5--Major Combatant (Destroyer, Frigate)
- 6--Major Combatant (Cruiser, Carrier)

On Army programs, a code "C" may be used in the third position to denote crew or operator maintenance performed within unit maintenance. On joint programs the Army will receive or transmit an 0 to indicate unit level.)

**Code:** F

**Application/explanation:** Support item is removed, replaced, used at the following intermediate levels:

- USAF-Intermediate\*
- USA--Direct Support\*
- USN-Afloat
- USMC-Third Echelon

**Code: G**

**Application/explanation:** Support item is removed, replaced, used at both afloat and ashore intermediate levels:  
Navy only

**Code: H**

**Application/explanation:** Support Item is removed, replaced, used at the following intermediate levels:

- USAF-Intermediate\*
- USA-General Support\*
- USN-Ashore (only)
- USMC-Fourth Echelon

**NOTE**

**\*For USAF programs and the USA Safeguard Program, code "F" will be used to denote intermediate maintenance. On joint programs, use of either code "F" or "H" by the joining service will denote intermediate maintenance to USAF and the USA Safeguard Program.**

**Code: D**

**Application/explanation:** Support Items that are removed, replaced, used at depot only:

- USAF--Depot, Mobile Depot, Specialized Repair Activity
- USA--Depot, Mobile Depot, Specialized Repair Activity
- USN--Aviation Rework, Avionics and Ordnance Facilities, Shipyards
- USMC--Depot

**(b)** The maintenance code entered in the fourth position tells you whether or not the item is to be repaired and identifies the lowest maintenance with the capability to do complete repair (perform all authorized repair functions). The decision to code the support item for repair at the indicated maintenance levels requires that all maintenance capability (remove, replace, repair, assemble, and test) for the support items be provided to that level. This does not preclude some repair which may be accomplished at a lower level of maintenance. However, because of service differences in communicating maintenance repair level information, a maintenance code entry in this position is not required by all services. When a maintenance code is not used, a dash (-) sign will be entered. For multi-service equipment/systems or when a code is entered, this position will contain one of the following maintenance codes as assigned by the service(s) that requires the code:

**Code: O**

**Application/explanation:** The lowest maintenance level capable of complete repair of the support item is the unit level. (To distinguish between the unit maintenance capabilities on different classes of ships, the following codes will be used intra-Navy only. On joint programs, Navy will receive and transmit an 0 to indicate unit maintenance level.

- 2--Minesweeper, Yardcraft, Patrol Boat
- 3--Submarines
- 4-Auxiliary/Amphibious Ships
- 5--Major Combatant (Destroyer, Frigate)
- 6--Major Combatant (Cruiser, Carrier)

**Code: F**

**Application/explanation:** The lowest maintenance level capable of complete repair of the support item is the following Intermediate level:

USAF--intermediate\*  
 USA-Direct Support\*  
 USN-Afloat  
 USMC-Third Echelon

**Code: H**

**Application/explanation:** The lowest maintenance level capable of complete repair of the support item is the following Intermediate level:

USAF--Intermediate'  
 USA--General Support'  
 USN-Ashore (only)  
 USMC-Fourth Echelon

**NOTE**

**\*For USAF programs and the USA Safeguard Program, Code "F" will be used to denote intermediate maintenance. On joint programs, use of either code "F" or "H" by the joining service will denote intermediate maintenance to USAF and the USA Safeguard Program.**

**Code: G**

**Application/explanation:** Both afloat and ashore intermediate levels are capable of complete repair of support item: Navy only

**Code: D**

**Application/explanation:** The lowest maintenance level capable of complete repair of the support item is the depot level:

USAF--Depot, Mobile Depot, Specialized Repair Activity  
 USA--Depot, Mobile Depot, Specialized Repair Activity  
 USN--Aviation Rework, Avionics and Ordnance Facilities, Shipyards  
 USMC--Depot

**Code: L**

**Application/explanation:** Repair restricted to designated Specialized Repair Activity.

**Code: Z**

**Application/explanation:** Nonrepairable; no repair is authorized.

**Code: B**

**Application/explanation:** No repair is authorized. The item may be reconditioned by adjusting, lubricating, etc, at the user level. No parts or special tools are procured for the maintenance of this item.

(3) Recoverability Code. Recoverability codes are assigned to Items to indicate the disposition action on unserviceable items. The recoverability code is shown in the fifth position of the SMR code as follows:

**Recoverability Code: Z**

**Definition:** Nonrepairable item. When unserviceable, condemn and dispose at the level Indicated In position 3.

**Recoverability Code: O**

**Definition:** Repairable item. When uneconomically repairable, condemn and dispose at unit level.

**Recoverability Code: F**

**Definition:** Repairable item. When uneconomically repairable, condemn and dispose at the following Intermediate levels:

USAF--Intermediate\*  
 USA--Direct Support\*  
 USN--Afloat  
 USMC--Third Echelon

**Recoverability Code: H**

**Definition:** Repairable item. When uneconomically repairable, condemn and dispose at the following levels:

USAF--Intermediate\*  
 USA--General Support\*  
 USN--Ashore (only)  
 USMC--Fourth Echelon

**NOTE**

**\*For USAF programs and the USA Safeguard Program, code "F" will be used to denote intermediate level. On joint programs, use of either code "F" or "H" by the joining service will denote intermediate level to USAF and the USA Safeguard Program.**

**Recoverability Code: D**

**Definition:** Repairable item. When beyond lower level repair capability, return to depot. Condemnation and disposal not authorized below depot level.

**Recoverability Code: L**

**Definition:** Repairable item. Repair, condemnation, and disposal not authorized below depot/specialized repair activity level.

**Recoverability Code: A**

**Definition:** Item requires special handling or condemnation procedures because of specific reasons (ie, precious metal content, high dollar value, critical material or hazardous material). Refer to appropriate manuals/directives for specific instructions.

**(4) Reserved for Service Option.** The sixth position of the SMR code is reserved for internal management purposes of each service.

**c. CAGEC (Column (3)).** The commercial and Government entity code (CAGEC) is a 5-digit code which is used to identify the manufacturer, distributor, or government agency/activity that supplies the Item.

d. **PART NUMRFR (Column (4))**. Indicates the primary number used by the manufacturer (individual, company, firm, corporation, or Government activity) which controls the design and characteristics of the Item by means of its engineering drawings, specifications, standards, and inspection requirements to identify an item or range of items.

**NOTE**

**When you use an NSN to requisition an item, the Item you receive may have a different part number from the part you ordered.**

e. **DESCRIPTION AND USABLE ON CODE (UOC) (Column (5))**. This column includes the following information:

(1) The federal item name and, when required, a minimum description to identify the item.

(2) STOCK numbers of bulk materials are referenced in this column in the line entry to be manufactured/fabricated.

(3) The statement 'END OF FIGURE' appears just below the last item description in column (5) for a given figure in both Sections II and III.

f. **QTY (Column (6))**. The QTY (quantity per figure column) indicates the quantity of the item used in the breakout shown on the illustration/figure which is prepared for a functional group, subfunctional group, or an assembly. A "V" appearing in this column in lieu of a quantity indicates that the quantity is variable and the quantity may vary from application to application.

**4. EXPLANATION OF COLUMNS (SECTION IV).**

a. **National Stock Number (NSN) Index.**

(1) **STOCK NUMBFR Column.** This column lists the NSN in national item number (NIIN) sequence. The NIIN consists of the last nine digits of the NSN.

(e.g. 
$$\frac{\text{NSN}}{5385-01-574-1476}$$
  
NIIN

When using this column to locate an item, ignore the first four digits of the NSN. However, the complete NSN should be used when ordering items by stock number.

(2) **FIG. Column.** This column lists the number of the figure where the item is identified/located. The figures are in numerical order in Section II and Section III.

(3) **ITEM Column.** The item number identifies the item associated with the figure listed in the adjacent FIG. column. This item is also identified by the NSN listed on the same line.

b. **PART NUMBER INDEX.** Part numbers in this index are listed by part number in ascending alphanumeric sequence (vertical arrangement of letter and number combinations which places the first letter or digit of each group in order A through Z, followed by the numbers 0 through 9 and each following letter or digit in like order).

(1) **CAGEC Column.** The commercial and Government entity code is a 5-digit numeric code used to identify the manufacturer, distributor, or Government activity that supplies the item.

(2) **PART NUMBER Column.** Indicates the primary number used by the manufacturer (individual, firm, corporation, or Government activity) which controls the design and characteristics of the item by means of its engineering drawings, specifications, standards, and Inspection requirements to identify an item or range of Items.

(3) **STOCK NUMBER Column.** This column lists the NSN for the associated part number and manufacturer identified in the PART NUMBER and CAGEC columns to the left.

(4) **FIG. COLUMN.** This column lists the number of the figure where the item is identified/located in Sections II and III.

(5) **ITEM Column.** The item number is the number assigned to the item as it appears in the figure referenced in the adjacent figure number column.

c. **FIGURE AND ITEM NUMBER INDEX.** This index lists the figures in the order in which they appear in Section II.

(1) **FIG. Column.** This column lists the number of the figure where the item is identified located in Sections II and III.

(2) **ITEM Column.** The item number is that number assigned to the item as it appears in the figure referenced in the adjacent figure number column.

(3) **STOCK NUMBER Column.** This column list the NSN for the item.

(4) **CAGEC Column.** The commercial and Government entity code (CAGEC) is a 5-digit code used to identify the manufacturer, distributor, or Government activity that supplies the item.

(5) **PART NUMBER Column.** Indicates the primary number used by the manufacturer (individual, firm, corporation, or Government activity), which controls the design and characteristics of the item by means of its engineering drawings, specifications, standards, and inspection requirements to identify an item or range of items.

**5 SPECIAL INFORMATION.**

a. **Fabrication Instructions.** Not applicable.

b. **Index Numbers.** Not applicable.

c. **Associated Publications.** The publication listed below pertains to the Interconnecting Box, Target Interface; Interconnecting Box, High Power; and Interconnecting Box, Low Power

<b>Publication</b>	<b>Short Title</b>
TM9-6920-742-14-4	TIU, ICB/High Power, and ICB/Low Power maintenance manual

d. **Illustrations Listing.** Not applicable.

e. **Usable on Code.** The usable on code appears in the lower left corner of the description column heading. Usable on codes are shown as UOC: in the description column on the first line after the applicable item description/nomenclature. Uncoded items are applicable to all models.

CODE	USED ON
M74	TIU
M75	ICB/High Power
M76	ICB/Low Power

**6     HOW TO LOCATE REPAIR PARTS.**

a. **When National Stock Numbers or Part Numbers Are Not Known.**

(1) **First.** Using the table of contents, determine the assembly group to which the items belong. This is necessary since figures are prepared for assembly groups and subassembly groups, and listings are divided into the same groups.

(2) **Second.** Find the figure covering the functional group or the subfunctional group to which the items belong.

(3) **Third.** Identify the items on the figure and note the number(s).

(4) **Fourth.** Refer to the repair parts list for the figure to find the part number(s) noted on the figure.

(5) **Fifth.** Refer to the figure and item number index to find the NSN, if assigned.

b. **When National Stock Number or Part Number is Known.**

(1) **First.** Using the national stock number or the part number index, find the pertinent NSN or part number. The NSN index is arranged in NIIN sequence. (See 4a.) Both indexes cross-reference you to the illustration/figure and item number of the part you are looking for.

(2) **Second.** Turn to the figure and item number, verify that the item is the one you are looking for and locate the item number in the repair parts list.

**7     ABBREVIATIONS. NOT APPLICABLE.**

This fine document...

Was brought to you by me:

## [Liberated Manuals -- free army and government manuals](#)

Why do I do it? I am tired of sleazy CD-ROM sellers, who take publicly available information, slap “watermarks” and other junk on it, and sell it. Those masters of search engine manipulation make sure that their sites that sell free information, come up first in search engines. They did not create it... They did not even scan it... Why should they get your money? Why are not letting you give those free manuals to your friends?

I am setting this document FREE. This document was made by the US Government and is NOT protected by Copyright. Feel free to share, republish, sell and so on.

I am not asking you for donations, fees or handouts. If you can, please provide a link to [liberatedmanuals.com](http://liberatedmanuals.com), so that free manuals come up first in search engines:

<A HREF=<http://www.liberatedmanuals.com/>>Free Military and Government Manuals</A>
