SECTION I

INTRODUCTION

1.Scope

This manual lists spares and repair parts; special, tools; special test, measurement, and diagnostic other special support equipment required for performance of direct support maintenance of the OH-36/GPN. It authorizes the requisitioning and issue of spares and repair parts as indicated by the source and maintenance codes. normal supply channels.

Code

Definition

PD-Support item, excluding support equipment, procured for initial issue or outfitting and stocked only for subsequent or additional initial issues or outfitting. Not subject to automatic replenishment.
 XD-A support item that is not stocked. When required, item will be procured through normal supply channels.

2. General

This Repair Parts and Special Tools List is divided into the following section:

a Section II. Repair Parts List. A list of spares and repair parts authorized for use in the performance of maintenance. The list also includes parts which must be removed for replacement of the authorized parts. Parts list are composed of functional groups in numeric sequence, with the parts in each group listed in figure and time number sequence.

b Section III. Special Tools List. Not applicable. as follows:

c Section IV. National Stock Number and Part Number Index. A list in National item identification number (NIIN) sequence, of all National stock numbers (NSN) appearing in the listings, followed by a list, in alphanumeric sequence, of all part numbers sequence, of all part numbers appearing in the listings. National stock numbers and part numbers are cross referenced to each illustration figure and item number appearance.

3. Explanation of Columns

a Illustration. This column is divided as follows:

(1) *Figure number.* Indicates the figure number of the illustration on which the item is show.

(2) *Item number.* The number' used to identify item called out in the illustration.

b. Source, Maintenance, and Recoverability repaired (SMR) Codes.

(1) *Source code.* Source codes indicate the manner of acquiring support items for maintenance, repair, or overhaul of end items, Source codes are entered in the first and second positions of the Uniform SMR Code format as follows:

Code Definition

PA-Item procured and stocked for anticipated or.,

NOTE

Cannibalization or salvage may be used as a source of supply for any items source coded above except those coded XA and aircraft support items as restricted by AR 700-42.

(2) *Maintenance code.* Maintenance codes are assigned to indicate the levels of maintenance authorized to USE and REPAIR support items. The maintenance codes are entered in the third and fourth positions of the Uniform SMR Code format as follows:

(a) the maintenance code entered in the third position will indicate the lowest maintenance level authorized to remove, replace, and use the support item. The maintenance code entered in the third position will indicate one of the following levels of maintenance:

Code Application/Explanation

F-Support item is removed, replaced, used at the direct support level.
 D-Support items that are removed, replaced, used at depot, mobile depot, specialized repair activity only.
 (b) The maintenance code entered in the fourth position indicates whether the item is to be repaired and identifies the lowest maintenance level with the capability to perform complete repair(i.e., all authorized maintenance functions). This position will contain one of the following maintenance codes:

Code Application/Explanation

F-The lowest maintenance level capable of complete repair of the support item is the direct support level.
 D-The lowest maintenance level capable of complete repair of the support item is the depot level.

[Liberated Manuals -- free army and government manuals](#)

Why do I do it? I am tired of sleazy CD-ROM sellers, who take publicly available information, slap “watermarks” and other junk on it, and sell it. Those masters of search engine manipulation make sure that their sites that sell free information, come up first in search engines. They did not create it... They did not even scan it... Why should they get your money? Why are not letting you give those free manuals to your friends?

I am setting this document FREE. This document was made by the US Government and is NOT protected by Copyright. Feel free to share, republish, sell and so on.

I am not asking you for donations, fees or handouts. If you can, please provide a link to liberatedmanuals.com, so that free manuals come up first in search engines:
